Significant accounting policies

The accounting policies adopted in the preparation of the interim condensed financial statements are consistent with those followed in the preparation of the Group's and Company's annual financial statements for the year ended 31 December 2011, except adoption of new Standards and Interpretations as of 1 January 2012, noted below.

IFRS 7 Disclosures - Transfers of Financial Assets

The amendment requires additional disclosures in respect of risk exposures arising from transferred financial assets. The amendment includes a requirement to disclose by class of asset the nature, carrying amount and a description of the risks and rewards of financial assets that have been transferred to another party yet remain on the entity's statement of financial position. 4 Segment information

Management monitors the operating results of its business units separately for the purpose of making decisions about resource allocations and performance assessment. Segment performance is evaluated based on net profit or loss and it is measured on the same basis as net profit or loss in the financial statements. Group financing (including finance costs and finance revenue) and income taxes are allocated between segments as they are identified on basis of separate legal entities. Consolidation adjustments and eliminations are not allocated on a segment basis. Segment assets are measured in a manner consistent with that of the financial statements. All assets are allocated between segments, because segments are identified on basis of separate legal entities.

For management purposes, the Group is organised into following operating segments based on their products and services:

Furniture production

The furniture segment includes flat-pack furniture mass production and sale.

Real estate

The real estate segment is involved in investment in real estate, real estate management and administration, intermediation in buying, selling and valuation of real estate, in the geodesic measurement of land.

Other production and service segments

The other production and service segment is involved in hardware articles production (in 2011), road signs production, wood manufacturing and other activities.

Transfer prices between business segments are set on an arm's length basis in a manner similar to transactions with third parties. Segment revenue, segment expense and segment result include transfers between business segments. Those transfers are eliminated in consolidation. Capital expenditure consists of additions of property, plant and equipment, intangible assets and investment properties including assets from the acquisition of subsidiaries.

The granted loans from the Company are allocated to other production and services segment. The impairment losses for these loans are allocated to a segment to which the loans are granted initially.

During 1st Quarter of 2012 UAB Justiniškių Valda and UAB Justiniškių Aikštelė, which owns investment property previously owned by UAB Jurita, were separated from UAB Jurita. The new separated entities are assigned to real estate segment. The Group has established two real estate investment companies by investing by cash LTL 20 thousand: UAB Laukseja (investment in the agricultural land) and UAB Danės Gildija (project of apartments building in Klaipėda). Also investment properties with carrying value of LTL 7,970 thousand, located in Klaipėda, were invested into share capital of UAB Danès Gildija.

During the 1st Half of 2011 the Group has established these new companies: UAB Inreal GEO, Invalda Lux S.a.r.I, UAB Perspektyvi Veikla, UAB Via Solutions. The total amount of these investments was LTL 269 thousand.

The Group has earned a profit of LTL 2,037 thousand. In the Company statements, the price for the shares sold was equal to the carrying amount of the investments. In the caption "Net gains (losses) on disposal of subsidiaries, associates and joint ventures" of the Company's income statements was presented loss of LTL 298 thousand (the price of the shares was less as initial acquisition cost). Therefore, in the caption "Impairment, write-down and provisions" of the Company's income statements was presented impairment reversal of the same amount - LTL 298 thousand.

Other sales and acquisitions in 2012

In April 2012 the Company has acquired 24% of shares of UAB Aikstentis (currently a dormant entity attributed to the real estate segment). Amount of LTL 2,309 thousand was attributed to the non-controlling interest, so it was reduced by this amount, and, respectively, retained earnings attributable to equity holders of the parent were increased. The reason for a large attribution was that in 2010 prospectively applying the new requirement of IAS 27 net losses equal to LTL 2,343 thousand were not attributed to the non-controlling interest of UAB Aikstentis, and due to the sale of UAB Broner (previous subsidiary of UAB Aikstentis) net profit of LTL 2,316 thousand was attributed to the non-controlling interest.

In June 2012 the loans with amount of LTL 807 thousand granted to real estate entity SIA Uran, operating in Latvia, were converted into 50 % shares of the entity. These shares were sold for LTL 52 thousand. In the profit (loss) statement a loss of 755 thousand was recognised.
